Clean Up Week.

Spring is now well advanced and it is time for those who have not already done so, to think about cleaning up their premises for the summer. Every spring, all the litter which has accumulated during the winter months should be cleared away. So why not make this next week, "clean up week." A thorough clean up will not only add to the appearance of the premises but also to the health of the community. A little paint where needed and repairing of buildings can be added to the clean up program. There is nothing adds so much to the appearance of any town as the cleanliness of its streets and residences.

Softball Enthusiasts Will Organize Club.

Softball will be the next game to be played here if the men who met in C. E. Reiber's office last Thursday night can perfect their organization. Mr. H. W. Chambers acted as chairman of the meeting, and ways and means of procuring a suitable playing field and obtaining equipment were fully discussed. A committee comprised of Messrs. J. V. Berscht, H. W. Chambers and C. E. Reiber was appointed to look into these matters. Whilst there was not a very large attendance at the meeting, quite a large number have signified their intentions of taking up the game. About 30 have already signed up for membership. Another meeting has been called for this Thursday evening, May 8th. The committee hope to secure enough members to form four or five teams. The membership fee is suggested as \$1.00.

New Road Grader For Mountain View.

The Mountain View Municipality received delivery, Saturday, of a new caterpillar "sixty" elevating grader, which is equipped with a power take-off. This is one of the latest improvements in road building machinery. The weight of the new grader is 13,595 lbs. and it has a 19 ft. carrier, 30 ft. belt, 42 ins. wide and a 28 in. rigid disc plow. The grader will be used with the sixty-horse-power caterpillar tractor which the district purchased last year. Mr. Frank Hazleton will operate the grader and will commence in the north-west part of the district.

Fine Weather Brings Out Golfers.

That golf has become a very popular recreation with Didsbury business men, was evidenced on Sunday last. The fine weather was a temptation that made golfers dig out their clubs and hike to the links. Though in the morning there was a goodly number out, during the afternoon, over thirty members were making the rounds.

Hold W.C.T.U. Meet at Bawlf.

The eighteenth central Alberta W.C.T.U. convention took place in Bawlf, May 1st and 2nd. Delegates were present from Didsbury, Olds, Red Deer, Wetaskiwin and Bawlf. Mrs. L. C. McKinney, provincial president was present. The meetings were presided over by the vice-president, Mrs. H. M. Reiber of Didsbury.

The following officers were elected: President, Mrs. H. M. Reiber, Didsbury; vice-president, Mrs. P. L. Backus, Red Deer; corresponding secretary, Mrs. J. L. Poole, Wetaskiwin; recording secretary, Mrs. T. E. Armstrong, Olds; treasurer, Miss M. A. High, Red Deer.

The delegates from Olds invited the convention to that town in 1931.

Clean Up! Paint Up! Plant Up!

Mr. Wm. Atkinson, minister of agriculture for B.C., was in Didsbury, Tuesday and was accompanied by the provincial veterinary. Whilst here, they inspected Norman Clarke's dairy herd. Mr. Atkinson is a cousin of George and Russell Burns.

The baseball game last Wednesday evening with Innisfail as visitors, was adjourned at the end of the third innings owing to the spasmodic showers, with the score at 5-5. Innisfail will play here again, Friday, 9th May, 6 o'clock sharp. Didsbury will be at full strength, Friday. In the two previous encounters with Innisfail, the management have been scanning their eyes over the new players, now they have their team arranged. Innisfail will, no doubt, be at full strength too, so this game should be worth while coming to see.

LOCAL & GENERAL

Sunday, May 11th is Mothers' Day.

Mr. and Mrs. J. S. McCloy were visitors to Calgary one day last week.

Mr. Melvin Huget is taking his annual two weeks' recess from bank duties.

W. A. Teskey hauled the two cars which were wrecked north of town, to Calgary, Tuesday.

Miss Lottie Hupsperger was visiting with her sister, Mrs. Kimmuel east of Carstairs this week.

Mr. Bill McIntyre of Trochu was a visitor the first of the week at the Cressman home.

Mr. Cecil Adshead who underwent a major operation at the local hospital last week, is improving very satisfactorily.

The Ladies' Aid of Knox Church will give a supper in the basement of the church, Saturday, May 10th, from 5 to 7 p.m.

Mr. and Mrs. J. Borwick of the Orkney settlement north of Drumheller, visited with Mr. and Mrs. W. Spence over the week-end.

St. Cyprian's W.A. will hold a tea and sale of home-cooking, Thursday, 15th May, 3 p.m., at the home of Mrs. J. H. Lowrie, (the former H. Weber residence).

George Hoadley, minister of agriculture was unanimously nominated as U.F.A. candidate for the merged Okotoks-High River constituency on Saturday.

Miss Lenora Nohr wishes to announce she has opened a beauty parlor at the Rosebud Hotel. Miss Nohr has had three years' experience in beauty culture.

Mr. and Mrs. Eluid Cressman of Hillcrest, spent a few days in town, the forepart of the week, visiting relatives and friends. Eluid says Didsbury sure looks good to him.

Don't forget the meeting of the Fish and Game Association in the C.P.R. waiting room, Friday night, 8-30. All sportsmen and those interested in game preservation are urgently requested to attend.

During the ministry of Rev. A. E. Hayes, the membership of Knox Church has doubled. Nine more names were added to the roll at the reception of new members last Friday. The gathering at the Sunday service showed that the congregation is growing.

New Rector For St. Cyprian's Church.

Rev. H. Jackson Archer who is taking charge of the Anglican Parish, was visiting his parishioners here, the beginning of the week.

Mr. Archer comes here from the Epiphany Mission, Hartshorn, Alberta.

The induction service was held in St. John's Church, Olds, Wednesday evening. The Rev. Archdeacon Tims conducted the service.

Rev. H. J. Archer will hold his first service in St. Cyprian's Church, Sunday next, 11th May, at 11 a.m.

AWARDED CONTRACT

The Dutton Company of Winnipeg have been awarded the contract for grading 30 miles of the branch line to be built out of here this summer. Several sub-contractors have been in town during the past week. It is expected that the contractors with their gangs of men and equipment will arrive here this week.

Mr. H. McLean, C.P.R. civil engineer, and his gang of men arrived here on Saturday and will take up their residence in the Whitfield house for the summer while working on the new line.

Mr. Lewis, right-of-way purchasing agent for the C.P.R., has been in the district for several days and has been out purchasing the required land from the farmers who are fortunate, or unfortunate enough to have the coming railway run through their farms.—Crossfield Chronicle.

About one hundred and fifty men are now busy ballasting the C.P.R. track between Buoyant and Sunnyslope. The railway company hope to have this work finished by the beginning of June, after which time they expect to be operating a mixed train to and from Calgary each week.

A large number of Didsbury people went to Calgary, Thursday night to attend the graduation exercises of the Calgary General Hospital. Margery White of Didsbury and Miss Grace Dundas of Sunnyslope were members of the graduating class of nurses. Amongst those who attended the ceremonies, were—Mr. and Mrs. W. White, Miss E. White, Mr. and Mrs. J. McDougall, Miss Marie Kershaw, Mrs. Phillipson, Miss Bessie Clements, Miss Knudsvig and Miss Clements. Messrs. Ross Ford, Eddie Ford, J. Halton, C. Reiber and C. Cook.

Mrs. A. Dundas and Mrs. Jas. Dundas and family of Sunnyslope, were also in attendance.

Outstanding Jerseys Arrive in Didsbury.

What is considered to be the outstanding shipment of Jersey cows to arrive in Alberta, was unloaded by Norman Clarke on Saturday. The animals were the pick of the famous Waikiki farm, the second largest Jersey farm in the United States. Out of over 300 head of cows, Mr. Clarke had ten of the best mature cows selected. In addition, he imported five springing two-year-olds and four three-year-olds.

Experts in the Jersey line who looked the shipment over in transit, frankly stated they were outstanding from a point of view of both production and type. The mature cows would have averaged over 600 pounds of butterfat this year at the Waikiki farm. They are a distinct asset to the community and it is to be hoped many more of these economical butterfat producers will be brought into Didsbury district.

Philip Fleming, Jersey field-man for Western Canada and Thomas Law, president of the Chilliwick board of trade, visited Didsbury to look over the cows recently shipped in. They visited with Norman Clarke and congratulated him on being the possessor of such an outstanding herd of Jersey cows. In the opinion of both these men, the animals recently shipped into Didsbury are some of the finest in the west and should attract a lot of attention through the records they are sure to make.

Too Much Speed.

Too much speed was the cause of another car accident, Saturday evening on the highway north of town. When one car was passing the other, they bumped and both cars took a nose-dive into the ditch and overturned. The cars were very badly wrecked, but the occupants got off with minor scratches and bruises. The drivers of the cars were Mr. R. E. Austin and Mr. Haney, both of Calgary. The wrecking-car was called and both cars hauled into the Teskey Garage.

The same evening, another car went into the ditch a few miles farther north and was hauled into Olds.

Didsbury Golfer Marks Hole-in-One.

Clint Reiber of athletic fame, made a hole-in-one on the Didsbury golf course on Sunday—a gopher hole.

The Problem Of Unemployment

The nations of the world, and more especially those of the white race, and of these those most highly industrialized, are confronted with a common problem which is becoming increasingly acute, namely, unemployment, resulting from a lack of gainful employment for hundreds of thousands of people, able, willing and competent to work, but who are unable to secure it.

The present situation is a paradox. No less competent an authority than the United States President's Committee on Recent Economic Changes reaches the conclusion that the rise in unemployment in recent years is not so much the result of recession in industry, closed factories and general depression—usually advanced as causes of unemployment—as it is the direct outcome of prosperity itself.

In other words, the intensified activity which has characterized progress in the past decade has likewise intensified, and in a sense created anew, one fundamental economic problem—the problem of unemployment.

The problem of unemployment has been recognized since the war as a serious one in Great Britain, and greater publicity has been given the British situation than in other countries, largely because of the fact that in Britain, with its schemes of unemployment insurance, facilities existed for obtaining a more accurate accounting of the actual number out of work. It is now becoming more generally known that the percentage of unemployed to population is almost as high in many other countries, and higher in some. And the number of the enforced idle is increasing, until it is now estimated that 20,000,000 or more throughout the world are unemployed. The situation in Canada is decidedly better than it is in the United States, Great Britain, Germany, Italy, and most other countries. Even so, unemployment is a subject of growing concern in this Dominion to all Governments, municipalities, labor organizations and business interests in general.

Of course, in a young and developing country like Canada, and particularly in view of its long winter months which necessarily slow up many of our major activities, there always has been and, in all probability, always will be seasonal unemployment. That is unavoidable, and those engaged in occupations which must slow up, or be temporarily suspended in the winter, must, like the farmer, earn a sufficient amount in the months of activity to carry him through the slack period.

But why, following one of the most active years in the industrial history of Canada, with building construction records greater than ever before known, with development works of all kinds in progress, unemployment, practically unknown, business maintained at a high peak, which was the situation during the first three-quarters of 1929, should the unemployed be more acute than ever in the late fall and winter months? The answer cannot be found in any one thing, but is made up of many factors.

Let us consider Western Canada alone. In 1928, with a record crop volume of low grade, this country had to import over 50,000 harvesters, thus providing temporary employment which benefitted the whole country. In 1929 it was not necessary to import any harvest help, partly because of a 50% reduction in grain yield owing to drought conditions, but also largely because combined reaper-thresher machines, coupled with the use of motor trucks on a large scale, eliminated the work hitherto performed by manpower.

Decreased volume of production resulted in a heavy falling off of railway freight movement, and consequent large decrease in railway employment, which was accentuated by the general tie-up in the wheat markets. All down the line business was affected adversely, and unemployment grew.

Again, take railways. Every year witnesses increased traction power of locomotives. In the United States the tractive power of locomotives per railway employee increased 11 per cent. in the seven years between 1913 and 1920, but 35 per cent. in the two years between 1925 and 1927. Here in Canada, the C.P.R. and C.N.R. are introducing huge locomotives of great power undreamed of ten years ago. Enormous tonnage is now hauled in a single train which not many years ago would have called for the operation of two or three trains. Thus the number of train crews is lessened.

Cheap electric energy distributed all over the country, with a multitude of new machines of all kinds, electrically operated, is replacing hundreds and thousands of small industries where much work was done by hand.

But, it will be said, great industries have been built up as a result of new inventions which now employ hundreds of thousands, as, for example, the automobile industry, radio, aviation. True, but each replaces something else. Consider the automobile, and its companion the truck. It has replaced the manufacture of carriages, buggies, farm and other wagons. The making of harness is fast disappearing. The village blacksmith is almost extinct. On the one hand the automobile industry provides increased freight traffic for the railways; on the other hand it takes both freight and passenger traffic away from them.

One motor truck does the work of several horse drawn wagons; one combine replaces two binders, a threshing outfit, and a score or more stokers, teamsters, and other helpers. A motor driven power shovel or ditch digger supersedes a small army of laborers. The radio has silenced many a piano and phonograph. The moving picture has closed up the theatre with its travelling shows in all but the largest cities, and now the "talkies" with their elaborate musical presentations are finishing the work, as well as throwing thousands of men and women engaged in theatre and moving pictures orchestras out of work. Each picture is its own orchestra.

Mass production aided by wonderful new machinery turns out products of all kinds in ever increasing volume, employing one man where formerly a score found work. That one man receives greatly increased wages and enjoys a higher standard of living, but his high wages are but a mere fraction of the cost of production with cheap power, machinery, and mass production the main factors of cost. So while he and others prosper, and many people enjoy things formerly denied to them because of their cost, the unfortunates displaced in this onward march of progress are unemployed and in distress. With no work to be found for which by previous training and experience they are best fitted, they find all other avenues closed to them because the same process is at work everywhere.

What is the solution? No man yet knows. It will be found, because it must be. The continuance of civilization depends upon it. In a word, as one writer puts it, something of the same kind of engineering efficiency which has brought about these displacements of man-power will have to be applied to the problem of finding openings for competent men where they are needed.

An old temple bell has been restored to Japan by a Swiss museum as a token of loyalty to the League.

Invention For Blind

Standard Typewriter Keyboard Can Be Converted Into Braille System

John Lemp, Tavistock druggist, has completed an invention whereby the keyboard on any standard make of typewriter may be converted into a Braille system keyboard for blind persons, who may wish to take up stenography.

The invention consists of a set of brass caps, embossed with Braille letters and figures instantly detachable.

Mr. Lemp, who has a blind daughter, has offered the invention free to institutions for the blind.

A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. A tonic of the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening faded nerves and turning down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville Centre, N.S., writes:—"Dr. Williams' Pink Pills have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about, and doing my housework left me completely used up. Everything seemed to worry me, and I was in a very discouraged condition when I began taking Dr. Williams' Pink Pills. I soon found the pills helping me, and continuing their use I fully regained my health. Since then I always take a few boxes in the Spring to build me up for the hot weather, and always I find the best results. I therefore cheerfully recommend these pills as the best of health builders."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Use Good Seed

In the opinion of a successful farmer and grain exhibitor, registered seed or seed closely traceable to registered is preferable because it produces uniformity in ripening, in appearance and in the shape of kernels. Impure or mixed seed is sure to produce a sample with different types and lacking in uniformity.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Largest Deposit Of Diatomite

The largest deposit of diatomite in the Dominion at present known is in the vicinity of Quesnel in central British Columbia, where material of pure grade occurs in beds forty feet thick that extend over a huge area.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Ruins of an old Roman wharf, where no doubt the emperors' pleasure galleys were once moored, have been found at Lake Neml.

W. N. U. 1833

New Line To Bay Shortens Route

Sturgis Cut-Off Will Be Ready For Operation Early In May C.N.R. States

Construction work on the Sturgis-Hudson Bay Junction branch line of the Canadian National Railways will be finished about May 18, and the line will be turned over to the operating department on that date. An announcement to this effect was made recently by A. E. Warren, western vice-president of the company.

A very considerable saving in time and distance between southern Saskatchewan and the Hudson Bay Railway will result with the completion of this line and the opening of it for regular freight and passenger service. Between Regina, Moose Jaw and other southern points in Saskatchewan there will be a lessening of 94.6 miles over the existing route from those centers to The Pas. Intermediate points such as Melville and Yorkton will also be brought considerably nearer to The Pas and the Hudson Bay Railway.

Until the Sturgis-Hudson Bay Junction line goes into operation the route from Regina to Hudson Bay Junction is via Swan River, a distance of 429.6 miles. The distance by way of the new route which lies through Melville, Yorkton, and Canora will be 335 miles.

Passenger and freight train services are now under consideration by the departments concerned but it is not expected that an announcement on train service will be made for a few weeks.

The Sturgis-Hudson Bay Junction line was one of those included in the three-year branch line programme which was passed by parliament in 1927. Although it is practically the last item on that programme to be completed, the date upon which it is to be turned over for operation is more than six months ahead of that set by the bill. This adds to the enviable record of the engineering forces of the Western Region of the Canadian National Railways in completing all its construction work months ahead of the limit set by parliament. The laying of steel to Churchill and the completion of the Flin Flon and Sheridan Railways and the Aberdeen-Melfort branch line are other examples.

Combines In Western Canada

The successful introduction of the combine into Western Canada by the Dominion Experimental Station at Swift Current, Saskatchewan, in 1922 has aided materially in establishing this system of harvesting in the Prairie Provinces. Since its introduction in 1922, the use of the combine has spread till in 1928 over 3,650 combines were sold in Western Canada.

Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:

(1) The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

acts 2 ways at once

New "Ice" Discovered

New Liquid Yet Unnamed, Boils At 18 Degrees Below Zero

Discovery of a new refrigerant which, it is held, will bring about a vast improvement in living conditions, has just been announced by the division of industrial and engineering chemistry of the American Chemical Society.

The refrigerant, as yet unnamed, is a compound of carbon, chlorine and fluorine and is technically known as fluoro-chloro-methane. It is a clear white liquid, boiling at 18 degrees below zero Fahrenheit. Commercial production, the announcement said, will probably not be practicable for at least two years.

Saskatchewan Coal

Saskatchewan's coal production in 1929 was more than 100,000 tons higher than in 1928, and created a record for the province. Total production was 568,759 tons as compared with 464,428 tons in 1928.

Practice Of Inoculating Seed Of Various Legumes Has Been Found To Be Beneficial

During the past few years practically all Ontario farmers have come to recognize the value of inoculating the seed of the various legumes when they are being grown on land which has not previously been sown to these crops or on land where their cultivation has lapsed for a period of years. This practice has proven a good one and is now used in every progressive agricultural country of the world, but the discovery of a proper method of getting the inoculation or culture to the farmer was not done in a day and the history is rather interesting.

The first efforts in this direction were made in Germany where samples of the soil which had been used for growing the legumes was transported to the virgin soil and there spread around to insure the presence of the bacteria. The disadvantages of this method were obvious and a commercial company sold a large number of prepared cultures which were found to be valueless. Agricultural colleges and experiment stations in the various countries worked on the problem for a number of years; at one time the Department at Washington believed they had a successful method of growing and sending out the bacterial cultures, but it proved a failure.

It remained for the Department of Bacteriology at the O.A.C. to devise the proper method and the culture advised was soon adopted as the one best suited for the work. The familiar bottle, half filled with a white substance is the outgrowth of this discovery and the bacteria on this culture will live almost indefinitely. Each legume has its own particular culture and the one that is supplied for alfalfa is of no value for inoculating red clover and vice versa. Since the discovery, the Department of Bacteriology has supplied something over 100,000 cultures to farmers requesting them at a nominal charge of fifty cents.

A question frequently asked is, when is inoculation required and for what crops? The common crops requiring inoculation are alfalfa, red clover, sweet clover, peas, field beans and soy beans. Inoculation should be practiced where the crop is to be grown on soil that has never before produced that particular crop and in general if it has not produced a good yield of the said crop within the past four or five years.

The Department have not claimed unfailing increases after the use of the inoculant, it has been generally assumed that in about seventy cases out of every hundred there will be a substantial increase and reports have shown that in the case of the other thirty per cent. the bacteria were probably already in the soil and the inoculation thus rendered unnecessary.

It is interesting to note that rich soils which are very high in nitrogen will often produce good crops of legumes for the first time without inoculation. The reason for this is that the bacteria used in inoculating have as their function the converting of the nitrogen of the air into a form which the plants can use and in nitrogen rich soils the soil nitrogen is used when the bacteria are absent, thus seriously depleting the soil but not giving any noticeable effect on the plant.

"I sent a letter to have my character told from my handwriting."
"What was the result?"
"Your letter shows that spelling is not your strong point." — Buen Humor, Madrid.

Would Curtail Production

Effort Made To Reduce Spring Wheat Planting In United States

Two United States government preachers of the gospel of curtailed production as the only real salvation of wheat farmers made ready in Chicago to speed over the great spring wheat area of the northwest in a last-minute effort to forestall the planting of wheat on at least 2,000,000 acres.

The two men were Dr. John L. Coulter, chief economist of the tariff commission, and James Howard, federal farm board representative and former president of the National Farm Bureau Federation.

Their final plans for the intensive campaign by which they hope to reduce spring wheat acreage by 10 per cent., were made in conference recently with Alexander Legge, president of the Farm Board.

(By Annebelle Worthington)

It's typically sports! A charming wearable type that adapts itself to all the season's new fabrics.

Several dresses may be made from this Style No. 2841 and each one appear entirely different.

It is sketched in wool jersey in chartreuse green, with dash of soft bow tie and suede belt. Applied neckband gives smart finish to becoming collarless Vionnet necktie.

It comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

Orange-red or violet blue silk crepe is effective to complete ensemble.

Serious Problem For Cattle Committees

Herdsmen Said To Be Resorting To Knife and Needle For Show Ring Purposes

The Farmers' Advocate says: Cattle committees who outline the policy and lay down the rules which govern exhibitions in Canada are giving earnest thought and consideration to the serious problem of detecting and barring "doctored" cattle. The large exhibitions, both East and West, realize that something must be done to prevent the public being hoaxed by super-expert herdsmen who are able to use knife and needle in beautifying their cattle. It is a practice that should be neither condoned nor permitted and the fair boards are acting wisely in their attempt to ban the doctored animal and the exhibitor who offers such animals for competition.

One suggestion is that all cattle be inspected by a veterinarian before entering the ring. This entails much unnecessary work, and any animal found tampered with would simply be led back into the stable to be presented at future shows or exhibitions held elsewhere. It becomes necessary to inspect only a few cattle, the champions and reserve champions, and the fear of exposure after winning such honors would deter any exhibitor from going to undue lengths in treating or preparing his animals for the show-ring. It is not the cattle that win third, fourth or fifth place in a class, or are outside the prize money altogether, about which a fair board needs to worry. Not one in a hundred of them receive more than ordinary fitting. It is the cattle that are winning high honors in the show-rings of Canada and the United States that need watching. Neither do we wish to imply that all cattle that win championships are dishonestly fitted or treated. Many breeders and exhibitors would condone no such practice; but it is known that herdsmen are resorting to the knife and the needle, and fair boards cannot overlook the fact.

Information Wanted

Mrs. Newlywed: "Oh, I wish these recipes would be more definite."

Mr. Newlywed: "What's the difficulty, my dear?"

Mrs. Newlywed: "Well, this one tells how to use up old potatoes, but does not say how old the potatoes must be."

The cougar, while very aggressive among the lower animals, exhibits an intensive fear of mankind.

State Of Canadian Business Is Fair In Comparison With Conditions In Other Countries

A Good Slogan

"An Acre Of Alfalfa For Every Cow" Takes On New Meaning

"An acre of alfalfa for every cow" is a slogan adopted in many districts where live stock is kept, and with modification to suit local requirements it is one which receives strong support by the Dominion Department of Agriculture. With the short crops and difficult seasonal conditions of 1928 and 1929, the need of adequate provision with respect to fodder crops became more apparent. Not only will the application of this slogan to alfalfa, or suitable clover or hay crops, go far to meet the urgency of the present situation, but it would also provide a useful and profitable rotation medium for keeping soil up to production capacity and assist in weed control. This scale of planting not only provides adequate pasturage but allows a surplus for feeding to other farm animals and often provides a carry-over of hay to a lean year.

More Milk Is Used

Consumption Per Capita Has Practically Doubled In Canada

During the past eight years domestic milk consumption per capita has practically doubled in Canada. The Dairy and Cold Storage Branch of the Dominion Department of Agriculture attributes this increase to the growing demand of the sweet milk trade and to increasing popularity of ice-cream. Canada's exports of dairy products have declined materially, and this has been due in part to the increasing domestic consumption and in part to the large numbers of high quality milk cows which have been sold to United States buyers and gone out of the country. In this connection it is noted that there were approximately 100,000 fewer good milk cows in Canada in 1928 than there were in 1927. Canadian dairymen are realizing the economic danger of the situation, however, and few sales of high grade milk cows are now reported.

"Mother, isn't your hair permanently waved?"

"My dear, what makes you ask such a thing?"

"I've been thinking. Why can't I have my neck permanently washed?"

THE TAKU GLACIER

This ice field, one of the largest in the world, is one of the many wonders which are to be seen on the route of the Canadian National Steamships between Vancouver and Skagway, Alaska. All of the three boats in this service, the "Prince George," "Prince Rupert," and the new "Prince Henry," pass within a stone's throw of this glacier, the height of which can be judged by the fishing smack in the foreground. The glacier is 90 miles long and only about one-quarter of its width is shown in the photograph.

Whilst the state of Canadian business is uneven and may be regarded as disappointing compared with that of a year or two ago, it is fair in relation to world conditions, declares the monthly commercial letter of the Canadian Bank of Commerce. Canada's unemployment problem, though by no means negligible, is not nearly so acute as in some of the older countries, the letter points out.

During the month of March business conditions showed a gradual accession in industrial and construction operations, which tended to offset unsettlement in other branches of commerce, says the bank's letter.

"We have mentioned before that the reduction in agricultural purchasing power would leave its mark on the economic structure and this has proved to be the case. Until the farming community experiences favorable weather and market conditions, business as a whole will continue on a smaller scale than in the four preceding years. However, Canada is fortunate that capital expenditures on development projects continue in large volume."

In the matter of European trade the bank's letter remarks that with the prospect of further substantial progress, Europe seems to offer good opportunities as an export market for those Canadian commodities which require an expanding market owing to Canada's increased productive power.

Prairie Cattle For Peace River

Cannot Procure Right Type Of Cattle In British Columbia

The cattle suitable for sale on easy terms to settlers in the Peace River district have been found on prairies and will be purchased there shortly. Hon. William Atkinson, minister of agriculture, announced on his return to Victoria from a prairie tour.

"There may be some surprise that we are not securing these cattle in British Columbia for our northern settlers," said Mr. Atkinson. "The fact is that we cannot secure here the type of cattle which these people must have for their conditions. What is required is a general purpose animal. Our fine dairy cows would not endure the cold there. It is necessary therefore to secure such cows as are to be found on the prairies only at this time."

Mr. Atkinson proposes to send experts of his department to the prairie shortly to select the animals which will be moved north in May to Peace River people. Probably about 150 animals will be sent this spring.

Ten Thousand Stings By Mail

Now Possible To Send Package Of Bees By Mail

With the improved technique which has been developed for the handling of package bees it is now possible to send them by mail, and the bee experts of the Dominion Department of Agriculture find that very satisfactory results are obtained by apiarists through the use of package bees to replenish weakened colonies and to establish new ones. The bee package is a wire-covered wooden frame work, usually containing two pounds of live bees. There are some five thousand bees to a pound. A shipment by mail is now possible and should a package of bees become broken open in transit ten thousand stings is the potential result.

"I hear your brother has married his deceased wife's sister?"

"Yes, he wanted another wife, but not another mother-in-law." — Karik, aturen, Oslo.

STREETS AND TREES

The town council, in offering to supply free of cost suitable trees for planting on boulevards, is giving every encouragement to a definite tree planting program. If every property owner who has not already done so would avail himself of this opportunity to do his share in beautifying his street, it is not difficult to foresee the time, a few years hence, when the whole town would be tree embowered.

Trees respond quickly to a little care, and those planted a very few years ago have now reached a gratifying size. Owners on some of the streets have co-operated in their planting, so that now in parts of the town there are welcome stretches of shaded boulevards. These are oases of coolness, beloved by the pedestrian and beautiful in appearance. It would require no great labor on the part of individuals to create similar avenues throughout the town.

The suggestion that the streets opposite vacant lots be also boulevarded and planted would bring about a greater uniformity of result. There is no one feature which so contributes a home-loving, restful atmosphere in a town as a wealth of trees. Every man who plants a tree gives something to following generations.—Vulcan Advocate.

The action taken by the council of the town of Vulcan, could well be emulated by any town in the prairie provinces. We have ample evidence here by the trees that are growing, what could be accomplished by more concerted action in tree planting.

ELECTION WILL COST PROVINCE ABOUT \$135,000.00

After four years of inactivity the wheels of the provincial election machinery have already been oiled and set whirling smoothly for the battle of ballots on June 19 by John D. Hunt, veteran clerk of the executive council of the province.

The presses are now rolling, printing instructions to deputy returning officers, poll clerks, enumerators and all the numerous officials required for an election.

Records for past elections show that the coming appeal to the electors will cost the province in the neighborhood of \$135,000, which makes allowance for the three new seats which will be filled this year. This expense will be provided for by special warrants to be issued whenever needed.

Comparative tables of the cost of the elections of 1921 and 1926 show a huge difference. In 1921 when the Liberal government of Alberta went to the country and met defeat the total cost of the election, not including direct costs incurred by the government such as printing, was \$217,255. In 1926, when Premier Brownlee took his government to the country, the total cost was \$131,183.

Clean Up! Paint Up! Plant Up!

LOCAL & GENERAL

Scratch Pads may be had at the Pioneer Office, 2 for 5 cents.

Mr. Geo. Smith made a business trip to Calgary, Monday.

Mr. T. McKay of Okotoks was in Didsbury, Sunday, visiting friends.

Mr. Ray Crossweller of the Bank of Montreal staff, spent Arbor Day in Calgary.

Mr. C. E. Brown of the Bank of Montreal went to Camrose, Saturday.

Messrs. H. Pearson, W. J. McCoy and W. Flynn paid a visit to the southern city last week-end.

Miss Marie Cameron of Calgary, visited with Mr. and Mrs. W. G. Liesemer, this week.

Mrs. Ranton, Mrs. Dr. Clarke and Miss Margaret Ranton spent Arbor Day in Calgary.

Mr. Espedal, formerly physical instructor at the Olds School of Agriculture, was in Didsbury last week-end, instructing in basket-ball and athletics to the boys and girls of the Public and High Schools.

Mr. Ernest Clarke was operated on for appendicitis at the Didsbury Hospital on Saturday. We are pleased to learn he is progressing favorably.

Mr. and Mrs. J. Keith of Havlock, N.B. are visiting their son and daughter, Mr. Ward Keith and Mrs. H. Hawkes. They have been visiting in California for the past winter.

Mrs. Hugh Brooke and family, who have been visiting in Switzerland for the past nine months, returned home on Monday morning. Mr. Brooke went to Calgary to meet them.

Mr. and Mrs. N. B. Snyder and son Walter left last Friday for Kitchener, Ontario, where they will locate. Mr. and Mrs. Snyder are old-timers in this district, coming here in 1900 and have lived continuously since then on their farm, south-west of town. Mr. Snyder sold his stock and implements in the spring and has rented the farm. We are sorry to lose these old settlers but our best wishes go with them in their new home.

SOWING WILD OATS

Wild oats head the list among the six worst weeds in Alberta. Wild oats cleaned from 51 per cent of the 1927 wheat crop handled at Fort William and Port Arthur amounted to 1,417,000 bushels. An estimate made by one official places it at 10,000,000 bushels of wild oats of the total grown in the 1927 western grain crop. This is a terrific loss and farmers should fight this noxious weed with greater determination. The only way to combat wild oats is to rotate with corn, barley, hay and break.

ALBERTA FIFTH IN INDEBTEDNESS

Dominion Government Figures for 1928 Show Prov. Assessment At \$609,496,539

With a population of 633,038 people, the total bonded indebtedness of urban and rural municipalities in Alberta was \$63,428,853 in 1928, according to official figures which have just been issued by the Dominion Department of Trade and Commerce. In 1928, the per capita bonded indebtedness of Alberta was \$63.85.

Alberta's total bonded indebtedness is shown fifth in the list of Canadian provinces. It is exceeded by Ontario, Quebec, British Columbia and Manitoba. Next to Alberta is Saskatchewan with a bonded indebtedness of \$53,092,330. Last on the list is Prince Edward Island with only \$1,515,125.

The total bonded indebtedness of municipalities in Canada during 1928 is given at \$1,077,005,531, of which urban municipalities contributed \$953,089,133.

The report also shows that Alberta held fifth place among the provinces of Canada in assessment valuations, with a total of \$609,496,539. In fourth place was British Columbia, with \$634,601,014; and in sixth place was Manitoba, with \$539,913,667. In first place was Ontario with \$2,601,685,667.

HOME CANNING FULLY DESCRIBED IN NEW BOOKLET

Bank of Montreal Issues Valuable
Handbook for Thrifty
Housewives

Did you know that meats and vege-
tables can now be canned and put
away for winter use just as success-
fully as fruit? This is one of the
most useful and remarkable discov-
eries of recent years, and the process
is fully described in a handbook
covering the whole field of home can-
ning now being issued for free dis-
tribution by the Bank of Montreal.

In recent years the Bank has issued
a whole series of handbooks for far-
mers. The latest booklet, entitled
"Home Canning," is addressed par-
ticularly to housewives on the farm,
and should help materially not only
to solve the problems of canning, but
to widen its range and add to the
prosperity and health of rural
families.

Few people realize, perhaps, the
progress that has been made in re-
cent years in storing away the pro-
ducts of the summer season for use
in winter. There are those who can
remember when jam was the only
preserve. Then came the preserva-
tion of whole fruit in syrup. It was
only four years before the war when
methods were discovered for the can-
ning of non-acid vegetables and
meats, and now there is hardly any
perishable food which cannot be
stored away in times of plenty for
use when need arises.

The question as to whether or not
canned products are healthful natu-
rally arises. This book dissipates any
doubt there may be on that matter.
It shows not only how the essential
vitamins and other healthful qualities
may be retained in preserved foods,
but how they may be made to retain
their original freshness and thus con-
tribute materially in the preservation
of health and diet.

Everybody knows nowadays that a
plentiful supply of fruit and vege-
tables is necessary to a healthy diet.
Farm folks, however, have no quick
and easy access all the year round
to fresh products. They usually either
have to go without fruit and vege-
tables in winter, which makes for
monotony of diet and is expensive
from the health standpoint, or they
have to buy fresh and canned fruits
and vegetables, which generally re-
sults in going without. The better
way, as described in this booklet, is
to provide a supply of home-grown,
stored and canned products, which
yields good returns in money and in
family health, and incidentally proves
mighty convenient, since ready-to-
serve food is always on hand.

To show what a wide range of food
products may now be stored, the fol-
lowing are some to which the direc-
tions in this booklet apply: Tomatoes,
string beans, peas, corn, greens, as-
paragus, carrots, beets, rhubarb, ber-
ries, cherries, plums, peaches, pears,
chicken, beef, pork, soup and fish. The
containers to be used are glass jars
and tin cans, the latter sealed with-
out solder, thus being free from the
danger of poison, which is described
as "a hangover from the days when
soldered cans were used."

There are directions for both cold
packs and hot packs, and also not only
for the ordinary methods of process-
ing by heat, but also for the use of
that extremely valuable little inven-
tion, the steam pressure cooker, which
is especially helpful in the canning of
meat and vegetables and is useful all
the time for cooking.

Summing up, this booklet shows
how canning can give summer food
in winter; how the fresh-meat-in-hot-
weather problem can be solved; how
food that would otherwise be wasted
can be saved; how feed can be saved
by killing and canning chickens, pigs
and calves when they are ready; how
the housewife may always have at
hand food for unexpected company or
for busy days, and how the food bills
may be reduced.

Free copies of the booklet may be
obtained at the local branch of the
Bank of Montreal.

DDD for skin affections

Stops a Cough In One Night

A cough may be Catarrh with a dry tickling in the throat, it may be accompanied by partial stoppage of the nostrils and shortage of breath. Often there is a gagging in the throat, and every cough tears and hurts.

Coughs have a hundred different causes, yours may be due to any of the following:

Asthma **Inflamed Throat**
Exposure **Bronchitis**
Enlarged Tonsils **Pneumonia**
Inflammation **Croup**
Stomach Disorders **Pleurisy**

One remedy upon which physicians are relying today is Catarrhazone. It removes the cause of the cough, doesn't smother it.

It's simply wonderful to think how quickly a bad throat or catarrh can be helped with Catarrhazone. Its rich balsamic vapor is carried along with the breath to the innermost recesses of the lungs, bronchial tubes and chest, making it impossible for the germ of Catarrh to live. Thus soreness in the chest is at once alleviated—phlegm is loosened and ejected from the throat, old standing coughs are removed.

REMEMBER THIS, you breathe Catarrhazone and it will alleviate coughs, colds, catarrh, and weak throat. Large size, guaranteed, costs \$1.00, and lasts two months; smaller sizes, 25c. and 50c. Beware of imitations and insist on "CATARRHAZONE."

WORLD HAPPENINGS BRIEFLY TOLD

On its annual arctic cruise this summer, the S.S. Beothic will endeavor to reach Melville Island, situated 360 miles beyond the most westerly point yet reached by steamship.

Prominent railroad, pioneer of the West, and veteran of the Riel rebellion, W. H. Tomkins, 68, died recently at his home in Winnipeg. He was captured and held prisoner at Batoche, Sask.

Rt. Hon. Montagu Norman was re-elected governor of the Bank of England. This makes the eleventh year in which he will fill the office of governor to which he was first elected in 1920.

J. R. Nesbitt, of Shoal Lake, prominent dairyman, has been granted an honorary diploma from Manitoba Agricultural College. The honor follows the established custom of honoring each year one outstanding man in Manitoba's agriculture.

In a motion adopted by city council, of Toronto, police commissioners have been asked to prohibit the operation of a "bad and doubtful debt" collecting car, whose driver, clad in a brilliant uniform, with his gaily decorated car parked in front of homes of debtors, drew a good deal of unwelcome attention.

Ralph Hull and Ralph D. James, of Vancouver, students at the University of British Columbia, have been awarded mathematical scholarships, valued at \$1,000 each, by the University of Chicago. These are the first awards of the institution to Canadian students who plan to specialize in mathematics.

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

Many Uses For Spruce

The wood of all Canadian spruces is tasteless and odourless, making it valuable for food containers. It is also in great demand for musical instruments, principally for organ pipes, piano sounding boards, violin backs, etc.

Seventy pieces of wood go into the making of a violin.

Dandruff

You needn't be bald. Minard's kills Dandruff, checks falling hair, stimulates new growth and adds a healthy gloss. Rub into scalp with finger tips, four times a week.

W. N. U. 1833

Art On Ocean Liners

Big Ships Are More Modern In Decoration Than Most Hotels

It is not only in speed that great steamships are setting new standards. Design in cabins and public rooms is changing quite as radically as in the engineroom or in the streamlines of the vessels themselves. Modern art has stepped aboard the liner and made pre-war decorations look very smug and old-fashioned.

Advertising circulars are wont to characterize big ships as floating hotels, and in other days their saloons, smoking rooms and bars were modeled on hotel style. They went in for imposing copies of old masters, Louis XIV. furniture, Victorian cozy corners and grand staircases.

Nowadays they are more modern than most hotels in their schemes of decoration. The "Ile de France" when she was launched was the last word in modernity furnishings. The saloons and smoking rooms of a Swedish ship are one of the most modern pieces of public decoration. A new liner, the "Empress of Britain," which will be launched on the Clyde late in May, will display the handiwork of several famous artists.

Making New Geological Map

Area North Of Churchill To Be Surveyed This Summer

Dr. Ludlow J. Weeks, of the geological survey of the Department of Mines will "mush" from Mile 327, temporary end of steel of the Hudson Bay Railway, to Mistake Bay, on the west coast of Hudson Bay. Mistake Bay is some 350 to 400 miles north of Churchill, and Dr. Weeks, assisted by J. F. Kidd, of Vancouver, will carry out the important work of preparing a geological map of the district. Three Eskimos complete the party.

Dr. Weeks has left Ottawa for The Pas, Manitoba, and is due to return to civilization in the late autumn on the "Lady Logan," a staunch little forty-foot craft.

Heart and Nerves Caused Her To Have Cold Hands and Feet

Mrs. Joseph Price, Red Pine, N.B., writes:—"Several years ago I was troubled with my heart and nerves and was so bad, at times, my hands and feet would become numb and cold."

"I happened to see

advertised and started taking them at once. I continued for some little time, and since then I have had no return of my trouble."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Doctor: Your throat is in a bad state. Have you ever tried gargling with salt water?

Sailor: Yes, I've been shipwrecked a dozen times.

Persian Balm. Cool and refreshing. Soothing and protective. The perfect aid to beauty. Unrivalled in its softening and beautifying effect on the skin. Imparts a fresh and fragrant charm to the loveliest complexion. Banishes roughness caused by weather conditions. Safeguards the skin and keeps it smooth, soft and flawless. Use it for the hands and face. Always results in the highest expression of beauty.

Income Tax Collections

A total of 137,101 persons paid income tax during the fiscal year ended March 31st, 1929, and the sum collected was \$38,422,323.25, the largest amount yet gathered in by the Federal authorities. In 1926 there were 215,277 taxpayers who paid in \$55,571,961.57.

Strengthening Butter Boxes

Recent tests on butter boxes at the Forest Products Laboratories, Department of the Interior, showed that one wire applied around the centre of the box doubles its strength.

Minard's Will Stop That Toothache.

DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within.

The sane and harmless way. First correct the cause, sweeten the sour and acid stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkgs.

Carloads Of Horses

Animals Being Assembled At Moose Jaw For Spring Work

Under the management of the Saskatchewan Co-operative Live Stock Producers, Limited, the horse marketing section of that organization is undertaking to assemble carloads of horses at the Moose Jaw yards in readiness for spring work. With the aim of improving the condition of these horses they will be fed for a few weeks before offered for sale. This affords buyers an opportunity to visit the yards and select their teams.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Does Away With Noise

Contractors In London Use Silencer On Road Drill

Equipped with a silencer which eliminates more than half the noise and much of the vibration, a pneumatic road drill attracted much attention when exhibited recently in London. It was made for the use of contractors who meet with protests against the noise made by the ordinary drill exhaust. The silencer, clustered around the centre of the drill, are designed on the principles of the motorcycle silencer.

Will Combine Exhibits

Saskatchewan, Manitoba and Alberta will combine their exhibits at the World's Poultry Congress to be held in London, England, next July. The exhibit will occupy a frontage of 36 feet and will be the largest of the provincial exhibits.

Experiment a Success

Complete Newspaper Page Sent By Radio From San Francisco To New York

The complete front page of a newspaper has been transmitted across the country by radio for the first time.

Giving the present a peep into what may be commonplace in the future, engineers of the General Electric Company at Schenectady, N. Y., reported that successful experimentation had permitted them to read the first page of the San Francisco Call-Bulletin three hours after it had left the press. It was reproduced in full size in the laboratory of a new type automatic carbon receiver, connected to short wave receiving equipments actuated by signals originating 2,000 miles away.

The engineers did not hesitate to forecast many possibilities for this improvement in facsimile transmission, which, while still in a highly experimental stage, gave an indication that some day radio may be delivering a large part of business mail and may also bring daily newspapers directly into the home.

Canada's Oldest Men Dead

Within a period of less than three weeks death claimed the two oldest men in Ontario, and two of the oldest in Canada. James Wilson, 109-year-old negro, died at his home in Welland, Ont., and two weeks later at St. Joseph's hospital, Peterboro, James Hendley, of Peterboro County, died in his 109th year.

Inquiry by experts of the Mayo Foundation indicates that rheumatic persons can "sense" the approach of rain.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CHAPTER VIII.—Continued

The girl laughed, handed him "Cabot's Diagnosis," and wiped the top of her great-grandfather's desk with the dust cloth, as she replied: "I was merely considering the fact that it may have caused Jim Bennett to use his own brains—instead of his mother's."

The doctor pondered for a moment while Charmian watched him, a smile hovering on her lips.

"I begin to see light in the darkness," he said at last. "Your friend Bennett, I gather, possesses a forceful maternal relative who prefers, let us say, the mail-order variety of goods, to the honest home-made product. She must be mentally unbalanced."

Charmian's smile widened, but she flushed also, a fact that did not escape the watchful eye of her companion.

"You are too clever for an unsophisticated country maid," she said. "You mean, 'provincial,' don't you?" he retorted, grinning.

She laughed. "I had almost forgotten that terrible appellation. Poor Grandma! How it did trouble her. There! this place would look just right if we had a rug before your desk, and a couple of old brass candlesticks on the mantel. And we must shine up the andirons. An antique dealer from Eastboro wanted to buy them, and Grandma would have consented if I hadn't arrived in the nick of time. She argued that they weren't doing us any good out here, and that the ten dollars the man offered—"

"Ten dollars!" broke in the doctor. "He was a shark!"

Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's
Vegetable Compound

W. N. U. 1833

"Wasn't he?—though I had hard work persuading Grandma that I wasn't insane to refuse his offer. If you'll get the brass polish in the kitchen closet, I'll allow you the pleasure of shining those andirons yourself! These windows need hangings, Doctor. You don't want the filthy public looking in while you stick spoons down your patients' throat, do you? There's some nice old Java cotton in the attic that would be splendid—dark red, and very dignified! I'll get it for you to see."

"But I should pay for the furnishings myself," he objected. "I'm in luck not to be obliged to buy a desk or—"

"Nonsense," said Charmian, who was already at the door. "It's enough to ask you to buy a rug. I couldn't, to save my soul, scare up money enough for the right sort. You can get to work on the andirons while I skip upstairs."

But the andirons were destined to remain unpolished a while longer. As they stepped inside, Grandma's voice sounded from the shop.

"Come here, both of you." Her eyes were bright with interest as they obeyed. "I've been pounding for ten minutes trying to make you hear. There's something you've got to do. Charmian, and no time to lose. Whoever do you think has been here asking for a string of beads? No use trying to guess for you couldn't, not if you tried till Gabriel blows his trumpet. It was Deacon Purdie! Don't that beat the Dutch?"

"But—but what on earth does Deacon Purdie want of a string of beads?" gasped Charmian.

"Possibly," suggested the doctor, "it's a new fashion for deacons, like a Masonic emblem, you understand." Grandma's lips twitched, while Charmian, at a vision of Deacon Purdie with pale blue beads ornamenting his frock coat as he passed the contribution box, ventured a giggle.

"Don't you see," asserted the old lady, suddenly serious, "that he's making up to Luella Moore, that widow woman with the six children, just like Jim Bennett told me? It's she he wants those beads for, you can mark my words. They're cheap, and taking, I told him we were expecting some this morning. He's coming for them at two o'clock."

Charmian sank into a chair. "What possessed you to tell such an awful fib?"

"It's not a fib. To be sure, I wasn't expecting 'em till he suggested it; but I am now. I wanted to see how he'd act when he bought 'em."

"But we haven't any beads; and—"

"Yes, we have," put in Grandma, almost irritably. "It came over me while he was talking—that string of beads Jim Bennett bought for you at the five-and-ten cent store in Portland, when you were going to be a fortune teller at the church fair. They're somewhere 'round, and you've got to find 'em before two o'clock. It's my opinion that the deacon is going to ask Luella this afternoon, and he'd better have the beads along. They might weigh in the balance when a man goes courting his fifth wife."

"His fifth!" shouted John Carter. "And a church deacon?"

Grandma chuckled. "You find those beads, Charmian," she commanded, "and don't waste time. They may need to be strung over; and if you could scare up a sort of jewelry box to put 'em in, I think likely Edgar would be more impressed. And see here," she added as the girl arose, "don't you dare let on they came from the five-and-ten. I'm going to make him pay a dollar for them."

"Grandma!" cried Charmian, in a shocked voice; but the doctor laughed.

"Good work!" he said. "A widow woman and six kids ought to be a bargain at a dollar!"

CHAPTER IX.

When Deacon Purdie arrived promptly at two o'clock that afternoon and found Grandma Davis seated placidly in her chair by the window, he little guessed that there were two eavesdroppers in the next room. If Grandma herself was suspicious of the fact, she ignored it, and greeted the deacon with a guileless and deceiving smile. Though a shrewd business man as a rule, he didn't suspect that at this juncture of his fifth venture into matrimony, he had met his equal in a deal.

"Have you got 'em?" he questioned anxiously, as he stood hesitating in the doorway.

"The beads?" asked Grandma innocently. "Sit down, Edgar, and rest yourself a minute. You look as hot as tophet. You've got some new shoes, haven't you? I heard the squeak when you came up the steps. I guess you bought 'em at Earl and Hovey's. My husband used to say that Elias Earl bought squeaky shoes to sort of advertise his business. When he'd go up and down the aisle on Sundays passing the contribution box, folks would hear the squeak and be reminded of what he had to sell. And you're wearing a new tie, too. Aren't you getting a little old for a red necktie, Edgar?"

The deacon cleared his throat, while one large, hairy hand sought the latest extravagance that adorned his neck.

"I like a bright tie, Grandma. Nothin' like dressin' sort o' snappy on—on occasions. Now those beads—"

"And yet," broke in Grandma heartlessly, "with poor Sarah only six months in the grave. . . ."

She sighed, and her caller, fidgeting a moment, replied sanctimoniously: "Do you consider it's Christian to mourn when our loved ones have gone to a brighter shore? Man was not meant to live alone, Grandma, or—or—well, about those beads." (He glanced uneasily at his big silver watch.) "I got a long ride before me, and—"

"Dear me!" smiled the old lady, "I was forgetting what you came for, Edgar. I hope you won't be disappointed, but only one strand came, though they're real pretty. Perhaps it'll be easier for you not to be obliged to make a choice. There!" Grandma lifted a satin-lined box from the broad window sill and held aloft, before the deacon's dazzled vision, a strand of yellow beads. "Aren't they handsome?"

Deacon Purdie hitched his chair a trifle nearer, and reached for the bauble—removed his long-distance spectacles, and scrutinized the proposed purchase minutely.

"Do they come high?" he questioned after a serious moment.

"That depends on what you expect to do with 'em," replied the old lady briskly. "If you were going to donate 'em to a church fair, say, why you might hesitate; but if they're a gift to a lady friend, or some dear, loved relatives, Edgar, why that's a different matter. They're worth two dollars."

"Two dollars!" he exploded, in genuine consternation. "Did you say two dollars, Grandma Davis, or have my ears deceived me?"

"Your hearing is all right, Edgar, and you can be thankful for it, too, a man of your age. Beads are stylish these days, and the price maybe a little bit inflated." ("Inflated!" murmured one of the eavesdroppers in the next room. "Gosh!") "And if—"

The deacon arose dazedly, reaching for his hat.

"It's too much to expect of a man, Grandma," he said regretfully. "I had no idea they come so high. Maybe I could use somethin' I got at home, or—"

"If it's for a present, Edgar," broke in Grandma soberly, "I wouldn't risk any second-hand junk from 'round the house. Now you look here, maybe we'll come to terms."

"I'd give a dollar for 'em," admitted

the deacon grudgingly, "though such a waste of money seems almost sinful, and not one cent higher will I go."

Grandma reached for the beads and began arranging them carefully on their satin bed.

"Well, I'm sorry, Edgar." Her tone was definitely final. "But you wouldn't want me to lose money on the transaction, would you?"

"What did they cost you, Grandma?" queried the deacon warily, and sat down again. "I—I might on a pinch give a dollar and a quarter."

Grandma sniffed.

(To Be Continued.)

Little Helps For This Week

"It is a good thing to give thanks unto the Lord, and to sing praises unto Thy name, O Most High."—Psalm 92. 1.

Seven whole days, not one in seven, I will praise Thee; In my heart, though not in heaven, I can raise Thee.

Small it is, in this poor sort To enroll Thee; E'en eternity is too short To extol Thee.

—George Herbert.

I think we are not as thankful as we ought to be; we are lacking in the spirit of praise. We are far too much given to complaints and wallings, and I do not think these can please our Holy Father. If you are seeking to help another here, are heaping benefits on any one, it is not cheering to listen to a ceaseless tissue of lamentations. God expects His blessings to be acknowledged, both temporal and spiritual.

—Archer Thompson Gurney.

WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets—the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Federal Responsibility

Argument In Favor Of Federal Aid For Transcontinental Highways

The prime minister is partly—and, Westerners believe, only partly—right when he tells the House that road building is a provincial responsibility. It could be proved by that bulwark of the Canadian constitution, the British North America Act, that road building is an affair for the provinces, just as the prime minister says. But the draftsmen of the act no more anticipated the coming of the automobile, than they anticipated, say, the entry of women into politics and parliament. Yet, while the market roads and the byways of travel are provincial responsibilities, surely, if the transcontinental railways are the concern of the Dominion of Canada, why not transcontinental highways, in these days of universal auto travel? — Calgary Albertan.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectually that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Polite To Foreigners

A movement has been initiated at Dresden, Germany, to have the school children of Saxony taught to be especially polite and helpful to all foreigners. Hotel owners and others interested in the tourist traffic are behind the movement.

Minard's is Best for Grippe.

WRIGLEYS

Alertness scores everywhere.

Wrigley's creates pep and energy and keeps you alert.

A 5¢ package may save you from going to sleep at the wheel of your car.

Makes pep

"After Baby Came I Was Weak, Skinny, Gained 22 lbs."

"After baby was born I was very weak, skinny. Since taking Ironized yeast feel fine. Gained 22 lbs."—Mrs. Laura Benoit.

Thousands write new Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Ugly hollows fill out. Bony limbs get graceful roundness. Muddy skin gets clear and rosy like magic. Nervousness, indigestion, constipation vanish overnight. Sound sleep, new pep from very first day.

Two great tonics in one—special weight-building Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmedicated yeast. Results in half time. No yeasty taste, no gas.

So quit being skinny," tired, unattractive. Get Ironized Yeast from druggist today. Feel great tomorrow. Money back from manufacturer if not delighted with quick results.

A Japanese Discovery

Doctor Says Long Eyelashes Are Sign Of Weak Vitality

Long eyelashes are considered to add to the charm of a face. But they are, according to a Japanese physician, a sign of weak vitality. This doctor says that consumptive children have lashes twice as long as those of healthy little ones. While a normal baby's eyelashes grow about an eighth of an inch during its first year, tiny sufferers from infantile diseases have at the end of twelve months lashes twice as long. These discoveries were made in a hospital attached to one of the Imperial Universities.

True dyes are easiest to use!

Dresses, drapes or lingerie look new when they're re-dyed with Diamond Dyes. No spotting or streaking; never a trace of that re-dyed look. Just rich, even, bright colors that hold amazingly through wear and washing.

Diamond Dyes are the highest quality dyes you can buy because they're so rich in pure aniline. That's what makes them so easy to use. That's what they've been famous for 50 years. 15 cent packages—all drug stores.

Burnside Notes

Mr. Bob McCulloch spent a few days last week at his home here.

Mr. Cecil Cipperley has rented Mr. Joe Rist's farm for the season.

Miss Lydia Bittner is home from Didsbury, suffering with an attack of tonsillitis.

Lone Pine W.I. will hold their annual picnic, 24th May. Keep the date in mind.

Mr. Pat Spraggs left last week to visit his brother Bob at Hythe, Alberta.

Lone Pine baseball club will hold their annual meeting in Lone Pine Hall, Wednesday evening, 14th May. All those interested are cordially invited to attend.

Seeding will be practically finished this week in this locality, and the recent moisture makes crop prospects for 1930 much better than for last year.

Burnside U.F.A. met Monday evening and appointed delegates to attend U.F.A. nominating convention at Acme, 10th May. Mr. Hugh McLean and Mr. E. R. Dawson were appointed with E. Anderson and L. Hehn as substitutes.

RUGBY NOTES

The May meeting of Rugby W.I. was held at the home of Mrs. Farrant, with an attendance of fourteen members and one visitor. When the day's business was disposed of, Mrs. Farrant took up current events. This was followed by a very instructive and interesting paper on the noxious weed problem, by Mrs. Johnston. The meeting then adjourned with the singing of the national anthem and lunch was served. The June meeting will be held at the home of Mrs. Hosegood.

Clean Up! Paint Up! Plant Up!

Northern Messenger Contest.

The second nation-wide temperance campaign through the Sunday schools has closed. The successful winners of central Alberta district are as follows—Senior: 1st—Willette Armstrong, Olds., 2nd—Gordon Boettger, Didsbury., 3rd—Isabel Lamont, Red Deer. Intermediate: 1st—Joy Russell, Red Deer., 2nd—Dana Liesemer, Jutland., 3rd—Florence Campbell, Olds. Junior: 1st—Daphne Maunsell, Red Deer., 2nd—Barry Backus, Red Deer., 3rd—Ruth Kirk, Three Hills. The third course of study will begin early in the fall.

Al Jolson is Star Of "The Jazz Singer."

The announcement that Warner Bros. will bring their greatest motion-picture success, "The Jazz Singer," starring Al Jolson, to the Didsbury Opera House, May 14th and 15th at 8-30 p.m. is of prime importance. It is heralded as an epic of the screen.

The story of the "Jazz Singer" is well-known, and yet, under the direction of Alan Crossland, who has treated the story in the spirit in which it was conceived, there has been added a note of great beauty and pathos in the depiction of the rise of the son of the cantor who deserted his home to be a jazz singer, has for its parallels the life of Al Jolson himself. It is a picture which arouses its audiences to cheers.

OATS FOR SALE
